

How to do Sale entries via Grassroots

Log into Grassroots in the normal way via the breed society webpage or direct via grassroots.co.uk/BFT using your flock letters and password.

Click on the menu Icon in the top right.

Select **Sale Entries**

Double click on the correct sale from the list offered

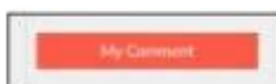

A list will then be displayed of all animals in your ownership in the registry.

There is a box alongside each animal with a drop-down box listing all eligible classes. These classes are filtered by age, sex and registration status. Select MV or non-MV in each case.

NB if the animal has 'no matching classes' check its registration status. Only fully registered animals are eligible for Badger Face Texel Society Sales. If the animal, you wish to enter isn't fully registered this will need to be completed and paid for prior to entering the sale. These applications and payments must be processed as they do not happen automatically.

Order if you would like them to be sold in a specific order please specify this in the box on the left e.g. 1,2,3 etc.

Click on My comments in the bottom left to add general comments about your flock.

Click on comments against each individual animal to make comments for each individual animal. Pedigree information will be picked up automatically when the catalogue is produced.

Click on **submit**. This will take you to the final conformation screen to complete.
